A GOOD assortation of Francis and American Papers, for the Shran by MINTIER & GUA. O.

NEWSPAPERHRCHIVE®

THURSDAY, NOVEMBER 2, 1887

We copy from the Boston Advertiser the latest facts and rumors in relation to the alleged piracy It appears that all doubt on the subject had ceased in New York on Saturday After-

THE SCSQUEHANNA We have no further information in relation to the capture of this ship. except the following more particular statement from Mr Rodney, the writer of the first letter, of the report made by the pilots, who witnessed the transaction No news of the event had reached Norrolk on Puesday, the twenty tourth

Correspondence of the Philadelphia Exchange. LEWES Oct 24,

Mr J Coffee I hasfuly wrote to you on Sun day evening, stating the alarming report we had here of the capture of the ship Susquehanna. by a piratical schooner Since then we have no turther news, but I have conversed with the persons on heard the pilot boat Mary Anp, who witnessed the affair

The slup wout to sea between twelve and one o clock with a fine breeze and under full press of Cativass standing of East by South boat went off Indian river at 3 o clock, shood off North East, and espied the ship standing S West with a schooner near her She (the boat) bore down on her and suon saw the cross in the foretopsail of the ship, and ascertained it to be the ship, and supposing some distress hoisted colours, which being perceived by those at the ship, she kept off south, side by side, with the yards of both vessels braced up so sharp so as to adinit close quarters

Between three and four o'clock P-M they maw both vessels, and particularly the ship, to be in a vascilating condition, frequently and suddenly changing courses from East to South but finally as before stated, both went off South and so went till darknes hid them from view. The ship had been out of sight of the boat nearly two hours before the was seen stand ing back

You can form your own conjectures upon these facts, which I hope may prove more favor

able than we anticipate Very respectfully, your ob a servant.

H F RODYEY LATER. The following statements leave little doubt but that the Susquehanna has failen a prey to pirates

Passengers who left New York on Saturday afternoon, among whom is J L Homer, Esq of Jersey by the Legislature the Grette, white that information had just reached New York, about half past three of clock, that it came out up in the examination of several persons arrested in Philadelphia, charged with being connected with Mitchell, the supposed originator of the piricy, that ten of the crew, and ten of the steertige passengers were in the interest of Mitchell, and were to act in concert with the piratical vessel when she stould attack the Susquehanna A report was in circulation at Newcastle, Del on Wednesday that an in ward bound vessel had seen a ship on fire The smount of this intelligence was posted on the ger any doubts expressed in New York of the In consequence great excitement pre All the packets, as well as other outward bound vessels, were arming to defend themselves.

PROVIDENCE JOURNAL OFFICE, )

Sunday morning Schooner William, Baxter, from James river arrived at this port, states that on Saturday 21st tustant, about 4 P M ,50 miles East by South of Cape Henlopen, saw a vessel on hre, enveloped in ske a foretopenal schooner raking near her They were seven or eight miles to windward (Easterly) of the William At the same time saw a large ship to leeward, standing for the nformation v by Captain Baxter before any mention was made ments of the country, the declaration of Mr to him of the reported capture of the S nor Van Bull ... "gainst a National Bank, and in fudid he hear of it until informed by the person vor of a divorce by the Government from all bank to whom the above intelligence was communi-

"Congress Hulf, Cape Island, Oct 25 Information from the Breakwater has just reached us, that a fore and aft shooner passed the Susquehanna, with a schooner alongside on Monday, off Chincoteague The pilot boat Price and Revenue Cutter went to sea last evening, wind North this afternoon wind fresh from N Esst and thick weather -

J MILLER There is an apparent inconsistency between the statements of Capt Baxter and that from Crue taland, which may be reconciled by the supposition that the ship may have been on fire from socident or design, but not destroyed Had the ship been destroyed, it is probable that Captain Baxter and others would have seen her karning after it because dark. The ship to lee ward was probably the Girard, the captain of which reported not having seen the Susquehanne, which might enough happen, since he pressed to keward of the William while the vessel sup pastd to be the Susquehanna, was far to wind ward of the William. Chincotesque, where the Surquehanna is reported to have been seen on Munda, is midwe; botween Cape Hentopen the uthern Capo of the Belaware, and Cape Charles, the northern cape of Va, consequently Liverpool

.... BANK CIRCULATION REDUCED. It appears by the Journal of Commerce, that the bank currency withdrawn from circulation since the first of January, 1837, amounts to the almost incredible sum of FOTY SIX MIL LION DOLLARS This too, in about eight in niha '

Nor is this all 45ths of all the SPECIE mounting to \$21 m flions has also been with drawn from circulation This iest of circula tion in bills of \$92 millions, and of specie \$5, indlions making a fot il amount, withdrawn from the use of the people in two-th rds of a vear of SINTY SIX MILLIONS OF DOL LARS I -

We can only say, that if the Government have nothing to do with the currency, it is time they should have something to do with it [Madiso-

ORIGIN OF THE SUB TRASLEY SCHEME WE have been credibly informed that W J Duane, while Secretary of the Treasury and while the removal of the deposites was incontemplated and under discussion, prepired and submitted to the President a plan of the identical scheme which is now the dailing one of the ultrasts of the day, proposing at the same time, to adopt the divorce plan in pia e of employing State banks. And that the proposition when made by him was immediately rejected in the most contemptuous manner That, the proposition, it made, was repudiated on the instant, and as "disorganizing and revolutionary," we do not entertain a doubt. If any friend of ours should see this, who is acquainted with Mr Duane and can obtain from him the facts as they occurred it may serve to throw some new hight on the or

igin of the project [Madisonian Throm Mil Noah's Lvening Star ] MINERAL WEATH No part of the world presents greater developments of mireril wealth than our own Its mines of gold, copper, leid iron cial, &c, which are every where found though yielding considerable wealth it present. have hardly indeed by gon to be explored What an uninense field is here opened for wealth and speculation Look at Georgia and North Caronna and Virginia with their gold and copper nines! Pennsylvinia and New York with their coal and iron. Missouri with her coal and iron and lead and Minne with her exhaustless grange quarries, and state and marble There is an abundance of lead and from and cost and salt &c to be found it the South West and Texas, which is doubly enriched with all, and more than all these, will ere long, be pouring her millions of mineral wealth into the lap of New York and New Orleans No man living for his pen, his pencil, or his chisel can forest or imagine the speculations and the fortunes that will here ifter be mide. The g ld and silver which is coined at our mints, will be exchanged for lead and from in Missouri and the granite, state and marble which is to embel lish our city, will be shipped in return for the "mmt drops, 'some hundred miles distent from the State of Maine. It is no hyberbole to say that we have nothing more important at the north to send in return for the hundred millions arnually shipped us from the south, than granite and ice In truth this is the staple. The former is the most substantial and valuable and beauti ful building material now in use, both at the north and south and each good quarry is a mine of wealth to its owner Every city is using it, and the demand for it is daily littleasing Land effected by it in a single year' Could the whole granite region be explored and quarried at once New York and New Orleans, we believe, would consume the whole of it in one year, so rapid is their growth and prosperity and so sure are they cestined to become the largest and wealthiest

cities in the western world.

The Granite Quarries of Maine, which form so conspicuous a feature in the geological shar The Times acter of that State, we are disposed to speak of in no measured terms, for they are invaluable They are now attracting the especial notice of builders and capitalists, and promise an immence return for all the capital and labor invested, and the most enduring source of wealth of any thing which this "working-day world" of ours affords. The quarries of the "Granite Region 'so called, and which is limited to a particular district on the western hank of the Kennebez River, at Hallowell, Me, are the most conspictate and important, and have besome immensely valuable "Grand Hill Quarspectinens from which have been exhibited Australia we want to be an a richer appoint the first the first and the fair, promise to be an aricher appoint the interior explored. The grante has a richers and do. thity about it, and a branty and uniformly of tellure, equal, if extensions the first and the fair, first superiory it. I the first and do. thity about it, and a branty and uniformly of tellure, equal, if extensions the first and the fair an at the Pair, promises to be as valuable as any

EUROPIAN L'ACEST SHIPS AND YANGERS There are 20 packet ships from this port to Liv. erpool, 16 to Havre, and 12 to London, ninking 48 in ill, averaging each about 700 tons. In the Lond on line all the ciptains are New England yankees but two. In the Garrick line all are yankees. In Kermit sine all are yankees four or five - It is remarkable, that of these luns of packets, which have been running 16 years, not one ship has been massing, that is lost and unheard of, and but one lost where any of the passengers have been lost, and this wis the Albion This shows the syety of American navigation under these skillul navigators. The Mississippi steam boat navigation. on a river, is infinitely more unsafe. None of our steam boat or the English steam out navigati nigros fe indeed for the great distance run over, and the time of running, it is unparalfelled both in salety and rapidity. When we lok at these banuful sinps and see the comf rts and luxuries on board, and remember for example that a passenger at Gravesend eats cinvass back ducks shot in the Chesnpeake, or tresh satmon from the takes of Scotland in New York harbor, we see no great cruse of outcry against that "credit and confidence" which distinguishes America. England and France the mighty levers of unrestrained and ambitious en terprise that in free Governments usurp the trute energies that of old built the Pyramids or the Colloceum up, or now are spending in commerce, rail roads and canals, what is spent in hard money Governments in mustering hun dreds of the usands of men to build up batteries or to hutcher each other at the sound of drum and fife. The captains of most of these ships came here as sankee sailor boys, without a shilling in their pickets and now they are part owners of the ships they command CRPUIT it is, and Confidence in them to back that creait, (for they gave their promises to puy when

They carned the wherewith for it) that his taken them from the foreumat, and the very must too from the American lorest and made them and their ships the boast and pride of their country fit values and fit entertainers for even the Wellingtone and Peels of England, and the Royal Dukes and Duchesses of France to visit They have, in fict, bridged an ocean and linked figether the Old World and the New, and France, and England and the Americans, too, owe them as deep a debt of honor and gratitude for it, as was everawarded to Sir Christopher Wren for St Paul's, or to Michael Angelo for

PROGRESS OF THE ENGLISH LANGUAGE IN the year 700, the Lord's Prayer began thus 'Uren fader this art in heofnal, sic gekalgud thin noma, to cymeth thin rick sie thin willa
